

K-LOVE's a great station. The music is encouraging, positive lyrics, and kid-safe. The DJ's are humoring, respectful, informative, and they look out for their listeners. It helped me get through a difficult time when I was physically hurting. It kept my focus away from all the pain I was having and directed it towards a higher place. If K-LOVE were to be cancelled, that would be a huge let-down; in fact, that would be a total disaster. K-LOVE listeners look forward to their music of encouragement and the DJ's humor, information and appreciate their respect; we're family. If they disappeared, it would be a death. K-LOVE's community service is a great labor of love to all that listen. The public can benefit from their information of seminars, children's activities, family outings, clean concerts for everyone and always uplifting praise for our creator which is uplifting for us. It's music with power and substance; great for the soul. Thank you for letting me submit these words on the behalf for K-LOVE.
